Education

Drexel University — Philadelphia, PA

Bachelor of Science in Computer Science — *September 2024 – May 2029 (Anticipated)*

- **Relevant Coursework**: Advanced Programming Techniques, Mathematical Foundations of Computer Science, Intro to Computer Science, Computer Programming, Computing and Informatics Design I, II, and III, Calculus I, II and III

Skills

Technologies C, Python, Rust, JavaScript, SQL, Java, LaTeX, PHP, Laravel, HTML/CSS

Tools & Skills AWS, Git, Linux, Unix, Vim, Bash, Regex, Nix

Experience

77 Sports Group — Pottstown, PA

Developer — *September 2025 - February 2026*

- Built a full-stack youth sports web application using Astro
- Provisioned and configured an AWS EC2 instance for application hosting
- Deployed and managed a PostgreSQL database using AWS RDS

Drexel Digital Development Camp — Philadelphia, PA

Counselor — *July 2025*

- Collaborated with fellow counselors to plan and facilitate engaging educational and recreational activities
- Mentored high school students in designing and coding a video game using Unity
- Provided individualized support to students, encouraging creativity and problem solving

Vidvita — Pottstown, PA

Developer — *May 2024*

- Designed and implemented a SQL database, to store user information and connected to other SQL databases
- Built a web interface using Laravel, and connected Laravel to the SQL database
- Ensured that administrator pages were separate from the user side of the site

Projects

Dotfiles — Wayne, PA

Nix, Lua — *December 2023 – Present*

- Designed dotfiles to enhance workflow efficiency, streamline shell environments, and automate system configurations
- Adapted original configuration files to home-manager configurations, enabling static configuration using Nix
- Utilized Git to manage and maintain dotfiles, ensuring seamless synchronization across multiple systems
- https://github.com/deafwired/dotfiles

N+ Stats — Wayne, PA

Python, JavaScript, HTML — *May 2023 – July 2023*

- Learned how to use an open source code base without documentation
- Dynamically generated a HTML file to show the user their statistics
- Created a data structure in JSON to store data on uploaded songs
- https://github.com/deafwired/another-info-plugin

Study Sphere — Philadelphia PA

Express, SQL — *January – June 2025*

- Applied Agile over 6 months to create a dynamic website that help users find other people to study with
- Deployed a MariaDB SQL database locally to develop the website
- Utilized EJS to create template pages, allowing us to make dynamic pages
